

Date: February 10th, 2020

From: Colleen Lockwood, President CFLCA

VIA Email To: Fort Lauderdale Mayor & City Commission Members, Fort Lauderdale City Manager Lagerbloom

On January 14th, 2020 the CFLCA held a General Meeting at the Fort Lauderdale City Hall. Quorum requirements were met. In attendance was **Kyle Stevens**, Managing Consultant, Stantec. Mr. Stevens provided the General Membership with a presentation on the “***Stormwater Rate Study.***”

Upon completion of his presentation a question & answer session was conducted. At the close of discussion and after a vote it was established that: **The CFLCA general membership is in support of the hybrid methodology which will support stormwater system and improvements**

The following twenty-six (26) neighborhood associations had a representative in attendance and voted **in support** of the hybrid methodology: Bal Harbour H.O.A., Bermuda Riviera Association, Colee Hammock H.O.A., Coral Ridge Association, Edgewood Civic Association, Harbordale Civic Association, Harbour Inlet Association, Home Beautiful Park Civic Association, Imperial Point Civic Association, Inc., Lauderdale Beach H.O.A., Lauderdale Isle Civic Association, Lauderdale Manors H.O.A., Melrose Manors H.O.A., Middle River Terrace Neighborhood Association, Nurmi Isles H.O.A., Inc., Progresso Village, Rio Vista Civic Association, Inc., Riverland Preservation Society, River Oaks Civic Association, Riverside Park Residents Association, Rock Island Community, Sailboat Bend Civic Association, Shady Banks Civic Association, Sunrise Intracoastal H.O.A., South Middle River Civic Association, Tarpon River Civic Association.

The following three (3) associations had a representative in attendance and voted in **opposition** of the hybrid methodology: Central Beach Alliance, Downtown Fort Lauderdale Civic Association, and Victoria Park Civic Association.

Respectfully,

Colleen Lockwood
President, Council of Fort Lauderdale Civic Associations
